### **DETAILED ACTION**

This Office Action is in response to the Applicants' amendment after final submitted on 09/14/2007. In virtue of this amendment, claims 1-9 have been canceled; and thus, claims 10-17 are now presented in the instant application.

#### ***Allowable Subject Matter***

1. Claims 10-17 are allowed.

#### ***Reasons for Allowance***

2. The following is an examiner's statement of reasons for allowance:

Prior art fails to disclose or fairly suggest a method for cleaning fine particles from an electron emission device comprising *while at the same time* (with applying the predetermined voltage for charging fine particles adhered to the surface of the upper electrode between the upper electrode and the lower electrode) *applying a voltage having a predetermined relationship to the voltage applied between the upper electrode and the lower electrode between the upper electrode and the counter electrode for a period sufficient for the fine particles adhered to the surface of the upper electrode to assume a predetermined level of charge*, in combination with the remaining claimed limitations as called for in independent claim 10 (claims 11-17 are allowed since they are dependent on claim 10).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
